Ministry Opportunities at Ministry Health Care include:

- A broad variety of patients from Central and Northern Wisconsin.
- Specialty Centers include: Cancer, Women and Family, Cardiac and Neurology.
- Shared responsibility for On- Call and the Emergency room.
- Clients from a diverse social economic and spiritual background.
- Opportunity to be part of a palliative care team.
- Working with an established Spiritual Services Team in a faith based organization.

Strengths of the Ministry Health Care CPE Program:

- As a member of an established Pastoral Care Team, the CPE Intern will minister to staff, patient's, and family members, while developing specialized skills for the particular setting.
- The diversity of clinical settings adds richness to our ministry reflections and a depth to the types of issues we regularly address. Justice, grief, tragic illness, loneliness, dementia, ethical conflicts, the implications of different ethnic backgrounds, societal attitudes, church life, faith and practice.
- The opportunity to become a significant part of a chaplaincy team.
- We are creative problem solvers. We have the ability to provide training for people needing to continue their ministry employment while pursuing clinical training.

Challenges unique to this program

- Our students must operate independently. The student peer group meets once a week and other opportunities for getting together are greatly limited.
- It requires intentionality to develop a sense of commonality.

- People come from a distance to meet, which means that scheduling and time management are often concerns.
