

# DAY OF PROCEDURE

CONSTRUCTION AND  
REMODELING  
UPDATE

We would like to take this opportunity to thank you for choosing Ministry Health Care and Ministry Saint Michael's Hospital for your care. We strive to give excellent care to every patient and customer.

When you arrive, please park in the Main Parking Lot (entrance off Stanley Street), enter the hospital through the Main Entrance revolving door. Please be aware that the Main Doors open at 5:30 a.m. Monday through Friday. Upon entering the building through the main entrance, look for the Volunteer Services Sign to the left in the Main Lobby. You will walk past the Volunteer Services desk and enter the HUB Registration Office through the glass door. Please note you will also be discharged from the Main Entrance.

#### For GI Procedures:

Make sure you have a ride arranged if you will be going home same day as your procedure. You will not be able to drive a car if you have received any type of sedation.

#### For your safety:

- You will be asked many times to give us your name and other identifying information
- You will be asked to tell us the procedure you are having done
- You will be asked to verify medications you are taking and the last time you took them.

You will be escorted to the nursing care area where you may need to change into a surgical gown. After changing, your nurse may take your blood pressure, temperature and pulse and will review your medical history and medications. A family member will be included in the discussion and education before your surgery.

Upon registration, you will be escorted, if needed, to the HUB Waiting Area. An associate from the department you are scheduled for will come to the HUB Waiting Area to bring you to your appointment.
